

Hi, my name is Christine Reutter and I am so excited to be teaching the Caterpillar and Art classes! This will be my thirteenth year at Joyful Noise Preschool

I was born in Reading, PA, but moved several times with my family as a young child. I've lived in Arizona, Tennessee, Wyoming and Vermont. In 1993, I graduated from Penn State University and moved to California. I met my amazing husband John while living there. After marrying in 2000, we moved back to Pennsylvania. We have two wonderful daughters, one of which lives in Utah and has two sons of her own. Our other daughter is 17 and a senior in high school. She plays softball for a local fastpitch team and much of our free time is spent watching her on the field.

I just love watching the children learn and grow at JNP!
